

RESILIENT IT
WE HAVE YOUR 6, 9, 12 AND 3

13 Reasons Why You'll Want To Work With Resilient IT For Your IT Projects And Support:

We Believe Your SECURITY is Crucial.

At Resilient IT we follow and enforce Security Best practices for all our clients, as well as internally. Your security is ONLY as good as your WEAKEST link. We educate our staff and clients on cyber security to help keep their environments safe.

Compliance is Our Specialty

We are well versed and trained in the requirements for Cyber Insurance and CMMC compliance requirements. Many providers simply use their "industry experience", we invested in the training to learn the true requirements and correct methods to implement and demonstrate compliance.

We Have The Ability To SOLVE Your Business problems.

We listen to your business problem or need and recommend the most efficient, cost-effective strategies to resolve the problem as well as achieve your needs and goals.

We Train Our Clients

We don't stop at just providing superior services like our competition, we also provide the training to make sure you take advantage of the tools we provide and understand how to use them.

We LIVE Answer Our Calls.

Our goal is to answer every call with a LIVE person during business hours. We don't do messy auto-attendants that leave you lost, confused or frustrated.

Wide Array of Talent.

From basic computer problems to complete server and network design or engineering, we've got you covered. If there is ever an issue we can't advise on, we know who to contact to get it addressed.

Trust Is Earned.

We earn our clients TRUST by always providing or recommending services, products or solutions that have the best interests of your business in mind. We keep abreast of the latest services and technology, so you can always rest comfortably knowing we won't try to sell you things that aren't needed.

All Projects Are Completed As Agreed On And On Budget.

When you hire us to complete a project for you, we won't nickel-and-dime you with unforeseen or unexpected charges or delays. *We guarantee to deliver precisely what we promised to deliver, on time and on budget.* We can offer our agreements on a fixed-fee basis so you know exactly what you're going to pay, not a penny more.

We SPECIALIZE In Working With Fast-Growth Companies.

That means we understand your incredibly hectic and stressful work schedule and WHY it's critical to remove obstacles, frustrations and technical problems to keep you productive. We understand your desire to eliminate waste, extra steps, workarounds and manual labor, and can help you maintain the freedom to work remote while making sure you meet compliance standards for data security and backups.

We Have Flexible Support Options to help you better manage your environment.

We provide our clients with a variety of managed support options, ranging from back-end maintenance and monitoring for issues, to user help-desk support with ticketing, to strategy and budget and asset/license life-cycle management. We have successfully provided these services for over 10 years and can create a solution customized for you and your team.

We CARE About Our Clients.

We strive to have a personal connection with each of our clients and treat them with respect and compassion. The Quad M Tech team takes the partnership with our clients seriously.

We LOVE Documentation.

Having proper documentation of your network is critical for fast resolution of problems and getting projects done properly the first time. All tasks are documented, diagrams of your network are created, and passwords are stored in a secure and encrypted location.

Your Satisfaction Guaranteed.

We offer a 100% Money Back Guarantee on All of our services, projects and programs.
